Cortec[®] Profiled in January Issue of Coatings Pro Magazine!

Cortec ■ ProFILE 2013

As the global leader in environmentally friendly Vapor phase Corrosion Inhibitor (VpCI) and Migratory Corrosion Inhibitor (MCI) technology, Cortec Corporation High Performance Coatings provide economical protection for both interior and exterior surfaces. Cortec's coatings are trusted globally to protect sensitive products to prevent the massive losses caused by corrosion. Using VpCI technology, Cortec provides industrial-strength, environmentally friendly primers, topcoats, and temporary coatings that outperform traditional coating methods. Cortec's professional staff can help find the ideal coating and provide custom color options to make sure that customers get the best coating solution for their needs. Cortec Corporation High Performance Coatings protect metal products, company profits, and the environment all while providing the best possible materials protection solutions.
