

# NEWS ALERT

## Cortec® Has A New Face And New Office in Kansas!

Cortec® is pleased to announce that Jack Sykes, CSI, CCPR, LEED Green Associate, has joined our MCI® and Additives team as a Technical Sales Manager working from Cortec's new Kansas office. He will be working nationwide on MCI® projects and worldwide on Additives projects. Jack brings with him over 25 years of technical experience in masonry and concrete construction, restoration, and thermal & moisture protection.

Prior to joining Cortec®, Jack was an Architectural Sales Specialist for PROSOCO. He also has past industry experience as a director of market development and coatings chemist for several other construction product manufacturers. He has participated in many US landmark projects including the US Capital Building Restoration, The Rock Island Arsenal, Hearst Castle, The Rookery, and Trinity Cathedral.

Jack is currently a member of CSI and chapters in Kansas City, Chicago, and Flint Hills. Jack has been involved in and Chaired the Product Expo Committee, Strategic Planning Task Chair, Past KC CSI Chapter President, Certification Chair, Golf Outing Chair, and Institute Program Development Task Team member.

Jack can be reached via email at [jsykes@cortecvci.com](mailto:jsykes@cortecvci.com), or by phone at (913) 522-0047. Please join us in welcoming Jack to our team!
