### Cortec Expands in Middle East

St. Paul, Minn.-based Cortec Corp. has launched a new entity named Cortec Middle East, to extend the reach of its trademarked MCI and VpCI corrosion-control solutions in that region and north Africa. The business is a joint venture formed with Cortec's regional distributor, United Corrosion Technologies, and will be supported with service centers in the United Arab Emirates, Saudi Arabia and Jordan along with distributors such as The Kanoo Group. Cortec's products include liquids, powders, impregnated foams/films and high-performance coatings. They are formulated to control multi-metal corrosion in industrial applications, including highly aggressive environments.
