## Cortec® CorroLogic™ Featured in November Issue of Materials Performance Magazine!

### Aboveground storage tank protection

Cortec Corp. (St. Paul, Minnesota) has released the CorroLogic™ system for aboveground storage tank protection. The system uses custom-engineered vapor-phase corrosion inhibitor (VpCI®) chemistry installed with corrosion rate monitoring equipment to provide real-time data on the effectiveness of the protection. CorroLogic™ is part of a new family of systems, services, and products especially designed to control corrosion in a variety

of applications within the most aggressive corrosive environments. Phone: +1 651-429-1100, Web site: [www.cortecvci.com](http://www.cortecvci.com).
