

NEWS ALERT

Cortec® EcoLine® 3690 Featured in October Issue of Pollution Equipment News.

“Green” Corrosion Protection

EcoLine® 3690 is a biobased and biodegradable coating that offers an open air corrosion protection. Made from renewable materials and containing canola oil as a carrier, it has an excellent thermostability and no effect on rubber, plastics or paints. This coating is designed for marine and high humidity conditions. The film is self-healing and moisture-displacing. — Cortec Corporation, 800/426-7832, www.cortecvci.com

Cortec® Corporation is a world leader in innovative, environmentally responsible VpCI® and MCI® corrosion control technologies for the Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Headquartered in St. Paul, Minnesota, Cortec® manufactures over 400 products distributed worldwide. ISO 9001 & ISO 14001:2004 Certified.
