Cortec® VpCI® Featured in February Issue of Pollution Equipment News.

Microcorrosion Inhibiting Coating

VpCI®-386 is an organic water-based acrylic coating that provides multi-metal corrosion protection in unsheltered outdoor applications. It can be used as a direct-to-metal coating or as a finish coat and is low VOC and non-flammable. VpCI®-386 is a clear coating that can be pigmented, is washable, has good chemical resistance and is UV resistant. — **Cortec Corporation,**
