## PRODUCT RELEASE

# Protect Your Investment With Cortec's NEW CorrBarrier™ Vehicle Undercoat!

Cortec's newest product, CorrBarrier™, is a water-based coating that exhibits excellent properties over various substrates. Protecting your investment from harsh conditions and preventing rust with this tough sealant has never been easier! CorrBarrier™ is primarily designed for the automotive underbody/under-hood market; it also has uses for industrial maintenance, railcar, truck/trailer, shipping containers, and

**When applied to all visible underbody surfaces, the coating seals out water, salt, and resists abrasion - giving the underside of your vehicle a well-maintained look.**

heavy machinery. This clear primer offers the versatility necessary to accommodate a multitude of applications and handle whatever the elements can throw at it.

**CorrBarrier™ offers the versatility necessary to accommodate a multitude of applications and handle whatever the elements can throw at it.**

CorrBarrier™ is heavy metal free, water resistant, salt fog resistant, and has a very low VOC content. When applied to all visible underbody surfaces, the coating seals out water, salt, and resists abrasion - giving the underside of your vehicle a well-maintained look. CorrBarrier™ will penetrate seams and joints, while maintaining a fast dry time to protect many mediums including carbon or galvanized steel, cast iron, aluminum, copper, or brass as well as various plastics.

## FEATURES

- Superior corrosion resistance (>500 hrs. corrosion resistance @ 2.0 mils DFT per ASTM B 117)
- Extremely low moisture/vapor permeability
- Environmentally friendly, non-toxic
- Water-based
- Thermally stable, (when cured) from -40 to 250°F (-40 to 125°C)
- Excellent chip resistance
- Fast Drying - dries to touch in 20-30 minutes @ ambient temperature, 77°F (25°C)

CorrBarrier™ is ROHS Compliant.
