## Whatever Your Hobby - "Summer Up" with Cortec's BullFrog.

Cortec® BullFrog products represent a breakthrough in corrosion technology that has been perfected and proven around the world. Although each product was created to perform a different task, they all employ the same Cortec® Vapor phase Corrosion Inhibitor (VpCI®) technology that is both safe and effective in removing and controlling the ravages of rust and corrosion. BullFrog products will protect your investments and help them perform at their optimum levels.

BullFrog's "Safer for the pond we live in" products are safe for you and the environment with no effect on electrical, mechanical, or chemical performance.

### **BullFrog "Summer" Products:**
