

NEWS ALERT

Cortec® EcoAir® Products Featured in October Issue of Pollution Equipment News.

Air Powered Technology

EcoAir® products are water-based, and powered by compressed air. The products are contained in a Mylar pouch, called EcoPouch™, inside a fully recyclable aluminum container. EcoAir® has no innate harmful, hazardous, or polluting characteristics, and is non-flammable. Current EcoAir® products include a corrosion preventative, a cleaner/degreaser and non-toxic rust removers. — Cortec Corporation, 800/426-7832, www.cortecvci.com
