

NEWS ALERT

Cortec[®] Spray Technologies - We're Back and Better Than Ever!

Today marks the one year anniversary of the tragic event that happened to our Cortec[®] Family. Cortec[®] Corporation announces that it has successfully commenced operation at Cortec[®] Spray Technologies (CST), its Spooner, WI manufacturing plant. It has taken a record breaking 9 months to reach this important milestone! We have dramatically expanded our manufacturing capabilities in this new state of the art facility, overcoming the significant challenges of reconstruction and ensuring the safety of our people. Cortec[®] has made an additional significant investment to expand our processes and services.

We would like to thank the hundreds of people - our employees, community, contractors, suppliers and government agencies - that have all contributed to the reconstruction of Cortec[®] Spray Technologies.

Cortec[®] is one of the largest producers of environmentally friendly corrosion control technologies. CST has provided quality manufacturing and contract filling for over forty years as a supplier of aerosol-chemicals to the electrical, electronic, industrial and maintenance repair industries.

Cortec[®] Corporation is a world leader in innovative, environmentally responsible VpCI[®] and MCI[®] corrosion control technologies for the Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Headquartered in St. Paul, Minnesota, Cortec[®] manufactures over 400 products distributed worldwide. ISO 9001 & ISO 14001:2004 Certified.
