**PRESS RELEASE**

## **Cortec® Launches Corrosion Engineering and Field Services Worldwide.**

Cortec® Corporation of St. Paul, MN is expanding its business and has launched Corrosion Engineering and Field Services (CEFS). This group is focused on providing each customer with the optimum corrosion control solutions to meet their needs. The scope of services for Cortec's CEFS includes a variety of corrosion control design, engineering and field applications serving all Cortec® customers and markets worldwide.

Tim Whited has been appointed Director of Cortec's CEFS division. Tim has over 30 years experience in the corrosion control industry designing and delivering numerous innovative solutions for a variety of corrosion control challenges.

Cortec® Corrosion Engineering and Field Services provides a cost effective service designed to ensure its customers receive the correct products, technologies and applications the first time, every time.
