PRODUCT RELEASE

Cortec's EcoClean® 407 Cleaner/Degreaser for Food Plants.

EcoClean® 407 is an effective, biodegradable, nontoxic, cleaner/degreaser specially formulated to clean the floors of food processing facilities while addressing the strict hygiene standards required. EcoClean® 407 effectively penetrates grease, oil, and fat and is ideal for cleaning hard surfaces. EcoClean® 407 contains enzymes and surfactants derived from a renewable vegetable source. This environmentally friendly, neutral pH cleaner is certified with the EPA's Designed for the Environment (DfE) program.

EcoClean® 407 can be applied as is or pre-diluted at a rate of 8 oz. per gallon of water. After being used, EcoClean® 407 can then be washed down grease traps and drains to aid in the removal of their grease and oil build-up.
