### PRODUCT NEWS RELEASE

## Innovative, Environmentally Safe Coating Corners Industry!

EcoLine® 3220 is an innovative addition to Cortec® Corporation's environmentally safe, biodegradable line of products made from renewable resources. This ready-to-use, canola oil-based product with Vapor phase Corrosion Inhibitors (VpCIs) produces a tenacious film that adheres to metal surfaces. It's an excellent product for anti-corrosion protection in high humidity and chloride environments.

EcoLine® 3220 is VOC free, has excellent thermostability, provides multimetal protection and lubricity to a variety of metals, and can be used on rubber or plastics. This coating can be applied by dipping, spraying, or brushing for all stages of metal fabrication, storage, and shipping.

Ecoline® 3220 is an excellent choice for direct replacement of other industry mineral oils and flammable solvents.
