PRODUCT RELEASE

Cortec® HC products for drinking water pipeline applications.

Cortec's HC 2030, 2050, 2060, 2075, and 2090 products are high performance liquid blended phosphate products designed to sequester iron and manganese as well as hardness salts while also providing corrosion control. They meet NSF/ANSI Standard 60 for drinking water.

These products increase the working time for existing piping and associated equipment by decreasing build up attributed to excessive deposits of minerals and corrosion. They also assist municipalities in meeting the Lead and Copper Rule by reducing lead and copper leaching and pipe corrosion.

Product	Sequestering	Corrosion	Iron	Calcium	Magnesium
HC-2030	I	III	I	I	I
HC-2050	II	II	II	II	II
HC-2060	II	II	II	II	II
HC-2075	III	II	III	III	III
HC-2090	III	I	III	III	III

Legend	
Excellent	III
Very Good	II
Good	I
