

PRODUCT SPOTLIGHT

Cortec® Corporation's VpCI®-415; A Complete Solution for Biodegradable Cleaning Needs.

Cortec's VpCI®-415 is a heavy-duty, multi-purpose, biodegradable cleaner/degreaser. This industrial strength cleaner has exceptional resistance against pitting corrosion, is hard water tolerant, has excellent cleaning action at low temperatures, and remains stable during freeze and thaw cycles.

VpCI®-415 provides up to 6 months corrosion protection for a variety of metals. It can be used with pressure washers, foamers, dipping tanks, steam cleaners, or in mopping applications.

VpCI®-415 is non-toxic, non-corrosive, non-flammable/combustible, and will not inhibit pollution abatement systems. It does not contain VOCs, hazardous air pollutants, ozone depleting substances, carcinogens, ketones, or nonylphenoethoxylates. This makes VpCI®-415 an excellent choice for those concerned with environmental compliance and worker safety.

VpCI®-415 has now been Qualified to MIL-PRF-87937 Type IV.

Please contact Cortec® for more information on VpCI®-415 or any of our other corrosion combatting technologies.

Cortec® Corporation is a world leader in innovative, environmentally responsible VpCI® and MCI® corrosion control technologies for the Packaging, Metalworking, Construction, Electronics, Water Treatment, Oil & Gas, and other industries. Headquartered in St. Paul, Minnesota, Cortec® manufactures over 400 products distributed worldwide. ISO 9001 & ISO 14001:2004 Certified.
